foreword -

. . . memories . . . memories . . . as four years of madison memorial high school yields fifty years of pleasant recollections . . .

. . . the **first year**—freshman steps are guided by the wisdom of a progressive faculty . . . best dance of the year, but not the last . . .

. . . **second year** — sophomore sessions . . . social and strong . . . gala theatre party . . . Christmas ball . . .

. . . **third year**—juniors now . . . candy sales . . . first junior—senior prom to be a dinner-dance . . . can well be remembered . . . our first goal well achieved . . .

. . . **fourth year**—seniors all . . . doing everything at once . . . graduation . . .

. . . this "caldron" then . . . not just the chronicle of a single year, but four years of M.M.H.S. . . . September '38 to June '42 . . . the peak . . . all will just be a memory . . . told here in words and in snap shots, as we hope you will sit back and remember it in years to come . . . informal, undignified, but young, and growing, alive and modern . . . and oh! what fun we did have . . .

sponsor -

. . . to you, Mr. Hickok . . . who have so generously given to Madison a recreation field . . . and then put Madison on the map by giving the high school a lighted football field . . . (it's the best field in this part of the state) . . . we are indeed honored to be able to say you were from our home town . . . to you, Mr. Hickok . . . we dedicate this caldron . . .

THE GOAL

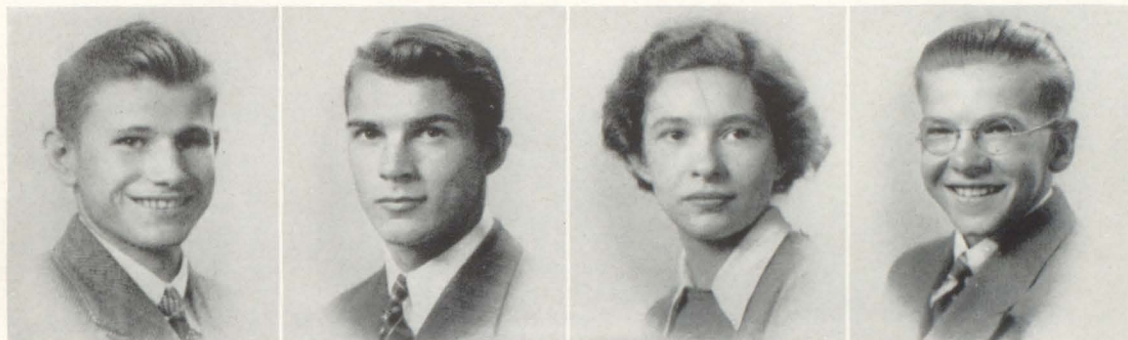

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses, income, and transfers between accounts.

The second part of the document provides a detailed explanation of the double-entry accounting system. It states that every transaction affects at least two accounts, and the total debits must always equal the total credits. This system helps in identifying errors and ensures that the accounting equation remains balanced.

The third part of the document outlines the steps for preparing financial statements. It begins with the trial balance, which is used to verify that the debits and credits are equal. From there, the process moves to the income statement, which shows the company's profitability over a period. This is followed by the statement of retained earnings and the balance sheet, which provides a snapshot of the company's financial position at a specific point in time.

The final part of the document discusses the importance of closing the books at the end of each accounting period. This involves transferring the balances of temporary accounts (like revenues and expenses) to permanent accounts (like retained earnings). This process resets the temporary accounts for the next period and ensures that the financial statements accurately reflect the current period's performance.

i predict -

The time is 1952—scene—Hickok Bowl game,
If M. H. S. can't win today, Coach Pethtel is to blame.
Up in the press box sits Jan Lange; she's here for New York Times,
Photographer from Cleveland Press, no one but "Toni" Klein.
The players rush onto the field—Debevcs styled the suits,
Nothing's been heard of Atkin since the '45 recruits.
Alumni line the benches, there's air hostess Dot Kenney,
Kurtzhals, greens keeper, golf lakelands, has made a pretty penny.
And have you heard that Wilson Nash has just bought a plantation?
Carl Dittmer went to Kent and now is growing certified spuds,
And Mary Quayle (?) enjoys dishes each day in ivory suds.
Bob Martin built his private yacht, now sails the seven seas,
While Dudley Rose has gained renown via his skill on skiis.
A plane designed by Raymond Graves overhead does soar,
The passengers are tended by no one but "Stuff" Wymor.
They say that Eva Faust has just created new hair do's,
And Phyllis Balch on radio has mastered singing blues.
Oh, look! Here comes the ambulance, that couldn't be the hearse,
For Doctor Febel's getting out; Shirley Miller is the nurse.
On Fifth Avenue in New York, Gladys Rooks' salon is seen.
Now, folks, salute Pete Berwaldt of the United States Marines!
Dorothy Ellis, in the House, her sec. is Jean Stimpert,
Poor M. H. S. math classes, for the prof. is Donald Wickert.
Hello, Nurse Gress, please tell me what you know about the rest,
You mean to tell me Harry Hensel's building dams out West?
Louise Downing, secretary of Gov'nor Anderson,
And some young famous doctor just married Nurse Matteson.
Frank Bair is now a gen'ral; Don Lockwood redecc'rates homes,
Pat Henninge is an explorer, no telling where he roams!
Arline Conklin does her own bit, she's a social secretary,
Scientist David Demos has a lab on the prairie.
He studies stars while Bob Kubach's 'lectrical engineer,
And Bob Schultz lives in Cleveland, he is Higbee's manager.
And Evelyn Fortney's Make-Up Comp'ny's really making "dough".
Lou Mavko, still a bachelor, is employed at RKO.
Lois Brott is lab'ratory technician at Ohio U,
While Walter Jeffers knows what it is to have Navy blues.
Brain specialist Esther Neubert mends minds that are a wreck,
And Betty Wirtzberger in New York is a private sec.
Now Hershel Rhodes has gone abroad as chemical engineer,
To learn more "dope" for Uncle Sam—he'll be gone 'bout a year.
So that is what the class of '42 does; what's that roar?
Oh, dear, the game is over; I don't even know the score!
